Performance, Drive In
Movie

CLASS DESCRIPTIONS

Improvisation/Drama - This workshop uses the 4 main guidelines of improvisation: listening, respect, positive thinking and teamwork. Students will build confidence and the ability to generate ideas, speak freely, and work in a safe creative environment. All of this is achieved through improv exercises and drama games and group work created by the students imaginations.

Mask Making / Performance - Students will create theatre masks with paper mache and plaster. They will see different theatre masks in history and will be asked to decorate their historic theatre mask. Once all masks are complete, students will be guided through a mask performance workshop, allowing them to explore acting through mask.

Film Acting - With the use of television , video and script, students will create commercials and memorable T.V. scenes, while learning how to create their performance on television! Students will watch back their footage and see themselves on T.V.!

Music Theatre: A full day of music, acting and dance! Students will learn several excerpts of songs, prepare them, rehearse choreography, and at the end of the day present a musical medley to their parents!

Storybook Creation - Students will choose from three story templates, fill in the blanks, make the story their own and create the art work for their very own book! At the end students will have their very own published story!

Rock n' Roll Art / Instrument Creation - Students will create their own rock n' roll art collage made up of house hold items, magazines and other art supplies. Students are encouraged to think in abstract terms and to get the creative energy flowing! They will also choose an instrument of their choice to replicate using house hold items!

Puppetry - Students will create their own puppets out of several different kinds of materials and mediums. Once the puppets are complete, students will be taken through a puppetry theatre workshop, at which time students will create their own theatre performance!

Dance - Students will spend the morning exploring different styles of dance - lyrical, jazz, and hip hop.

The Drive IN! - Students will end off a very exciting week with a movie afternoon! Students are encouraged to bring their sleeping bags and pillows for this drive-in slumber party!
